BOWLING

at

HOME

GOAL

Create your own bowling alley at home.

MATERIALS

- 10 Bowling pins
 - empty plastic bottles or plastic cups
- Balls: tennis balls work
- Paint (optional)
- Painter's Tape (optional)

SET UP

If you choose empty plastic bottles as your bowling pins, set them up in a triangle on the ground just like real bowling. If you choose plastic cups, stack them up in a pyramid.

A large black circle is centered on the page. Inside the circle, the word "PLAY" is written in a white, serif font and is underlined. Surrounding the circle is a repeating pattern of bowling pins. The pins are light gray with two red horizontal stripes near the top. They are arranged in a way that some are partially obscured by the circle and others are visible around its edges.

PLAY

You get two rolls to knock over as many pins as possible before you set them back up.

If you want to play like real bowling, you can keep track of your score and play 10 frames.

Optional: Take your bowling alley to the next level by painting numbers on your pins and by marking the alley on the floor with painter's tape.
